

Sinisa Persic

<https://www.youracclaim.com/user/sinisa-persic>

BIO: Persic is a The Chartered Market Technician (CMT) and Member of the CMT Association. He uses a strategy of culling the wide universe of stocks each day and identifying those that are building strong continuation patterns. These are stocks that are ready to breakout and are consolidating in bullish/bearish triangles, flags, pennants, rectangles and wedges ahead of the continuation of the trend. Persic holds B.A in Electrical Engineering.

CMT Charter

Issued by: [CMT Association](#)

Issued on: 12 August 2014

Expires on: 31 January 2020

Those who earn the CMT charter hold the highest credential within the discipline of technical analysis of capital markets. CMT Charterholders employ advanced knowledge in analyzing and interpreting market action, which includes applying classical pattern recognition, quantitative approaches to market research, and rules-based trading system design and testing. Completing the CMT Program demonstrates mastery of a core body of technical analysis knowledge used in trading and investing.
